

Active Girls Day at Broughton Cluster

Broughton High School were delighted to welcome MSP Maree Todd to the after school clubs on Friday for sportscotland's Active Girls Day. The Broughton Cluster offer a wide range of activities for girls and it was great to highlight the Cluster Primary and High School Hockey, Cluster Primary and High School Gymnastics and the Flora Stevenson Primary Netball Clubs. All these clubs help to support over 800 pupils being active before, during or after school with 59% of attendees in the Broughton Active Schools Programme being girls last year.
